

1K PU Wood Finish

GCI 1K P.U. Wood Finish is a high solid clear for interior wooden surfaces based on alkyd polyurethane. It is formulated as a single component brushable Product which is easy-to-apply. It provides a hard-wearing, high gloss coating and has good resistance to water, alcohol, abrasion etc.

Finish :

Gloss and Matt

Method of Application	Spray, Brush
Dilution	GCI Enamel Thinner
Drying Time	Surface Dry 45-60 mins @ 25°C
Theoretical Coverage Area	90 – 110 sq. ft / litre @ 40 microns DFT
Packaging	500ml, 1ltr, 4ltr & 20ltr

Benefits :

Fast Drying – Convenient and quick drying solution that saves time, energy and manpower.

Single Component Formula – Easy-to-use right out of the can with no component mixing required.

VOC Compliant – Safe for use in residential or commercial applications.

Low Odour – Paint odour is low during and after application making the property ready for occupancy in shorter period.

Good Flexibility – Withstands constant wood expansion and contraction to minimise defects like cracking.

Heavy Metals Free – Non-hazardous and does not contain Lead, Mercury, Chromium, Cadmium and Arsenic.
