

# P.U. Wood Finish

GCI P.U. Wood Finish is a high performance two pack Acrylic Polyurethane Wood Finish which offers weather resistant and quick drying property. This product delivers an excellent clarity, scratch resistance and preserves the natural beauty of wood due to its non yellowing property. It provides superior gloss and excellent gloss retention.

## Finish :

Gloss, Matt & White High Gloss

<b>Method of Application</b>	Spray
<b>Dilution</b>	GCI PU Thinner
<b>Drying Time</b>	Surface Dry 60-90 mins @ 25°C
<b>Theoretical Coverage Area</b>	80 – 100 sq. ft / litre @ 40 microns DFT
<b>Packaging</b>	1ltr, 4ltr & 20ltr

## Benefits :

**Double the Life of Furniture** – It has high elasticity which prevents cracks due to UV rays.

**Forms a Protective barrier Against Rain and Moisture** – Protect the wood from Algae and Fungal growth, as it has self-cleaning property.

**Superior Gloss and Excellent Gloss Retention Property** – A unique acrylic selection and flow modifier keeps the gloss for years.

**Crystal Clear Finish** – It is ideal for use over light-colored woods and stains and does not change on exposure to sunlight.
