

# NC Clear Lacquer

GCI NC Clear Lacquer is a nitro-cellulose based transparent lacquer. It is fast drying lacquer recommended for Interior Wooden Furniture & Metal Finishes. You can use GCI NC Clear Lacquer to get High Gloss Finish or Matt Finish.

## Finish :

Gloss, Matt and Satin

## Area of usage

GCI NC Clear Lacquer is extensively used for polishing of wooden furniture, Anticorrosive metal coating & various industrial uses. It is a lead free product.

<b>Method of Application</b>	Brush, Polish Cloth, Spray
<b>Dilution</b>	GCI NC Thinner
<b>Drying Time</b>	Surface Dry 30-60 mins @ 25°C
<b>Theoretical Coverage Area</b>	110 – 120 sq. ft / litre @ 40 microns DFT
<b>Packaging</b>	500ml, 1ltr, 4ltr & 20ltr

## Benefits :

**Low Odour** - Paint odour is low during and after application.

### Good Gloss Retention Property-

Even after prolonged exposure to atmosphere. It keeps the initial gloss for months.

**Prevents moisture absorption** - Prolongs wood life.

**Non Hazardous**- It does not contain lead, mercury, chromium, cadmium and arsenic.

**Good flexibility** - Special oils allow the finish to expand and contract with the wood as seasons and temperature changes.
